The success of most activities is directly proportional to the involvement of the people that choose to make a commitment of their **time, talent and treasure!** This is particularly true in a fund raising effort. The more people that become actively involved the more successful the effort. We are all very busy people. We live in an age when everyone is on the go and it seems as if we are always catching ourselves coming and going. **We have to ask ourselves how important this campaign is to us.** We have had a wonderful response so far but there is still a lot to be done. An effort of this magnitude takes hundreds of volunteers. Please do not hesitate to become part of the remarkable effort. You will have the satisfaction of knowing that you are doing something worthwhile, something that will benefit not only the present generation but also future generations. When you are called to serve, please say yes. You will not be asked to do something that is difficult or time consuming. You won't regret the experience. The more people involved in this project the easier it will be for everyone. God bless you and please keep **Our Faith...Our Hope...Our Future** capital campaign in your prayers. Say the campaign prayer often. To quote Albert Schweitzer: "One thing I know: The only ones among you who will be really happy are those who have sought and **found how to serve.**"
